

LumiCleanse™ UV-C TOWER ULTRAVIOLET GERMICIDAL PORTABLE TOWER

significantly reduces the presence of surface & airborne pathogens

up to 2,000sq.ft. coverage

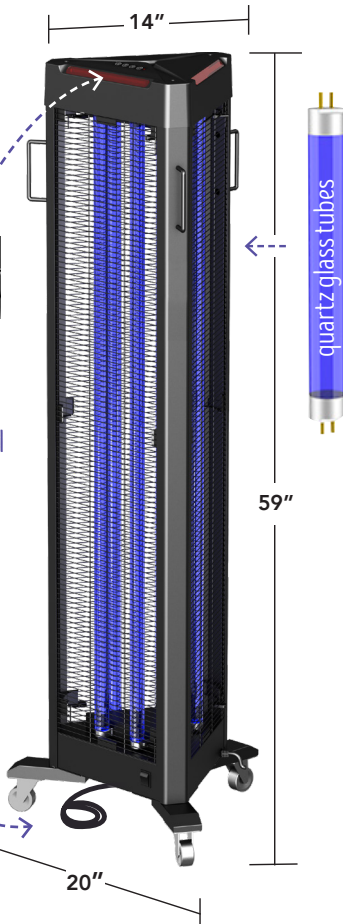

control via touch pad or remote control

remote works through wall

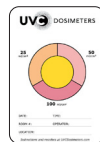

8' power cord

- Germicidal UV-C Tower fixture with 253.7nm wavelength has a proven track record for use in germicidal applications.
- Select from 3 timing options — 30 min, 60 min, or 120 mins.
- Designed with safety in mind. Once disinfection time is set by remote control, there is a safety delay before the UV-C light turns on, giving the user time to exit the space.
- Integrated motion sensor will detect any movement and immediately deactivate the fixture if someone mistakenly walks into the space while the light is on.
- Moveable & compact. Simply wheel tower to desired location, and disinfect.
- Perfect for hotels, schools, theaters & gyms.

PART #	UPC	WATTAGE
LC-UVC-TOWER-216W-01	844006062651	36W (T8) x 6

OPTIONAL ACCESSORIES – DOSIMETER CARDS (SOLD IN PACKAGES OF 10 CARDS)

- Easily verify a surface received the required amount of UVC exposure.
- Center circle changes colors which correlate to levels of UVC received.
- Test the effectiveness and functionality of your UVC equipment regularly for added peace of mind.
